

Managing Your Personal Fundraising Page

Logging In

To manage your personal fundraising page, you'll need to sign in using the login info email sent at the end of registration. Your username and password will be at the bottom of the email with the subject "[Your Name], Thank you for registering!"

If you've lost the email, you can contact your event administrator and recover your username and password using the contact info at the bottom of your event website.

To log in, click "Log In," the right-most item on the menu bar **1**. Enter your username and password **2** and click Log In **3** or hit Enter.

Your Dashboard

Your dashboard is displayed when you sign in. If you've navigated away, you can pull up your dashboard by clicking the Hello tab **1**, then the Profile Page option **2**.

To edit your page, click Edit Personal Page **3**. Team captains will have the option to edit both personal and team pages. To edit your contact or login information, click Contact **4** or Login **5** (see below).

Editing Your Page

To get to your page, see Step 3 above. If you have a team page and would like to keep your personal page private and redirect to your team page, turn your page off **1** by clicking the slider.

To customize your page link, click the blue highlighted text **2** and enter a custom link and click "Save Changes."

To set a donation goal, use the Goal drop-down menu to select an amount **3**.

To edit your bio, type in the text box in much the same way you enter text in a word processor. When you're done, click "Save Bio" **4**.

To edit your profile picture, click "New Image" beneath the picture thumbnail **5**. Select the image you want from your file library, then click Open. Next, use the slider below the image to re-size if necessary. Then drag the image so it is positioned in the box how you want it **6**.

Click "Upload" to save **7**.

Editing Your Contact Info

To edit your name, home address, and email address, click "Contact" from your dashboard **4**. Edit your contact information by clicking and typing in the text fields. To save your changes, click "Update."

Changing Your Username/Password

Once you have logged in with the credentials from your welcome email, you may want to change your password into something you can remember. To edit your username or password, click "Login" on your dashboard **5**.

Enter a new username or password using the text boxes. When you're done, click "Update."

Adding Your Instagram Feed to Your Page

To add your Instagram feed to your page, click to enable Instagram photos **1**.

Enter the Username **2** and password **3** associated with your Instagram account and click "Log In" **4**.

Next, click "Authorize" **5** to give Stride permission to pull the most recent photos from your Instagram to show up on your team page.

Once your account is connected, it will show under Current Account **6**. If you want to remove your Instagram feed from your page, click the "Remove" button **7**. To view your Instagram feed on your page, go to the public view and scroll down to the bottom. Your most recent photos will rotate along the bottom of the page. Users can click on a photo to open the photo in Instagram.

Viewing & Sharing Your Page

You can share your page to potential donors through Facebook, Twitter, and Email. Before you share on social media, make sure you have a photo uploaded to your Stride personal page to appear with the post.

First, go to your page by clicking “View & Share Personal Page” from your dashboard **1**. Then, click either the Facebook, Twitter, or Email icon below the navigation bar **2**.

Commenting on a Page

To post a comment to a team or individual page, pull up the page by searching for it under Teams/People **4** and click inside the text box to add a comment **5**. Type your comment, then click Post or hit enter.

Once a comment is posted, the owner of the page can delete it by hovering the mouse over the comment, and clicking the X that comes up to its right.

Special Note:

If the image for your page does not load quickly, the file size of the photo may be too large. You can look at the file size by right-clicking on the image and selecting the last drop-down option called “Properties.” The size should be less than 6 MB or any number followed by KB.

There are many reasons why an image might not load. If your image is the proper size, please try again, allowing more time for your image to appear. If this does not work, contact Technical Support under the Help tab.
